IMPORTANT INFORMATION

Please read carefully and keep this information for further reference.

Check the contents of the pack carefully before installation. Responsibility will not be held for any de-fit / re-fit costs where faulty product has been fitted. If any fault is found with materials or workmanship, it must be reported immediately to the manufacturer. Remedial action will be taken, based on information received, on condition that:

1. Full details are supplied to the manufacturer;
2. The product has not been modified or tampered with;
3. The manufacturer is informed of any damage/shortages prior to installation.
4. The product has not been installed, or attempts made to install. We do not accept responsibility for any problems that may occur through incorrect installation. Any modification to the supplied product will negate all product guarantees.

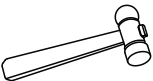

BEFORE YOU START

Before drilling ensure there are no hidden cables or pipes (water, gas or electrical) behind mounting points. Always wear suitable eye protection when drilling. Ensure the wall surface is able to take the weight of the complete product.

When using power tools always follow the manufacturers user instructions.

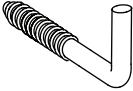

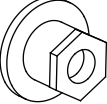

Please follow the correct installation method. If the instructions are not followed appropriately there is an increased safety risk to the user.

Tools Required (not supplied):

Spirit Level	
Pencil	
Drill	
Hammer	

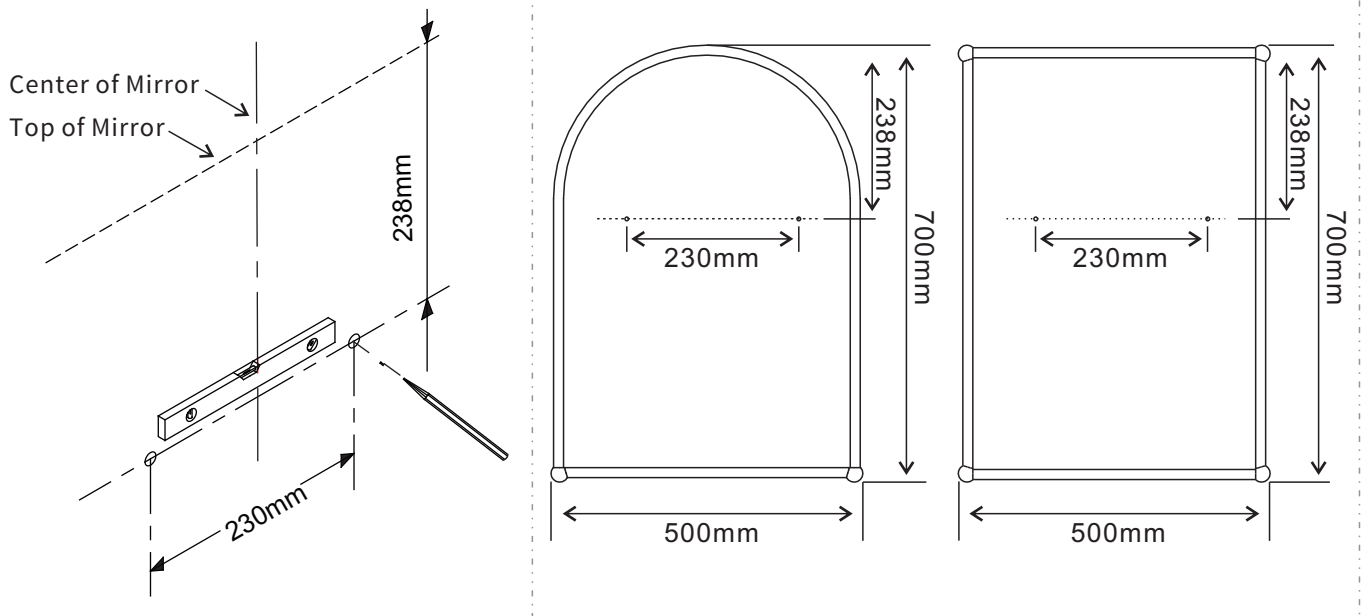

Torque Screw Driver	
8mm Drill Bit	
Measuring Tape	

Parts supplied:

		
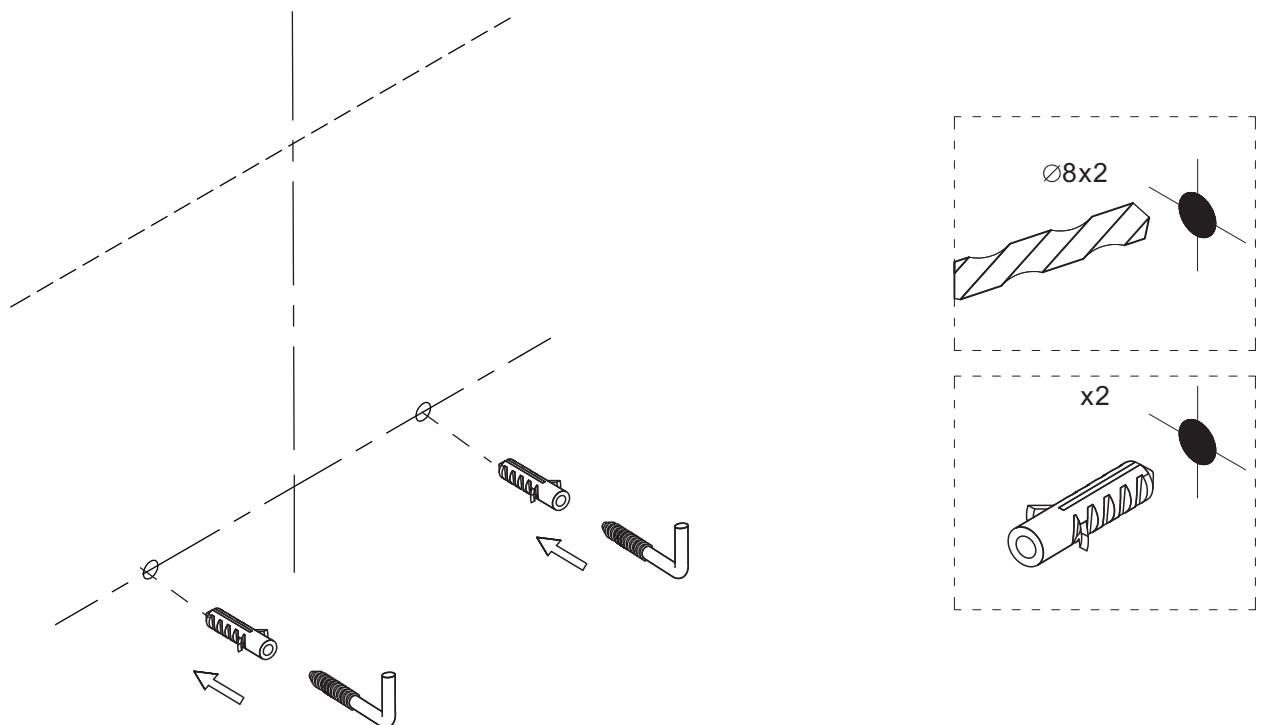

2x	2x	2x

INSTALLATION

- 1 Determine the final installation position, mark the fixing hole positions in pencil.

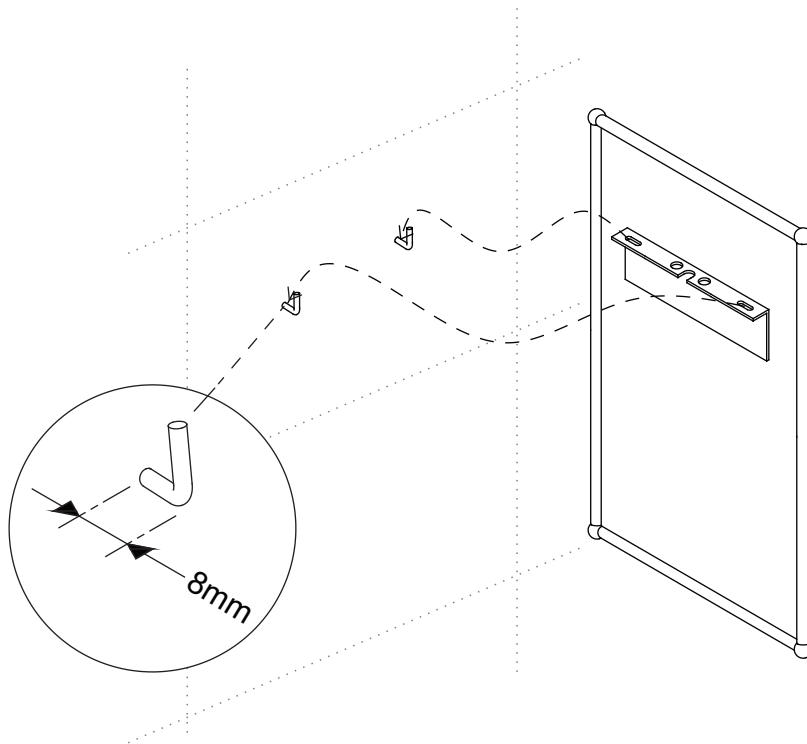

- 2 Using an 8mm drill bit, drill holes on the marked positions.
(Note: In the event that the wall fixings supplied are inappropriate for the wall, please source alternatives).

INSTALLATION

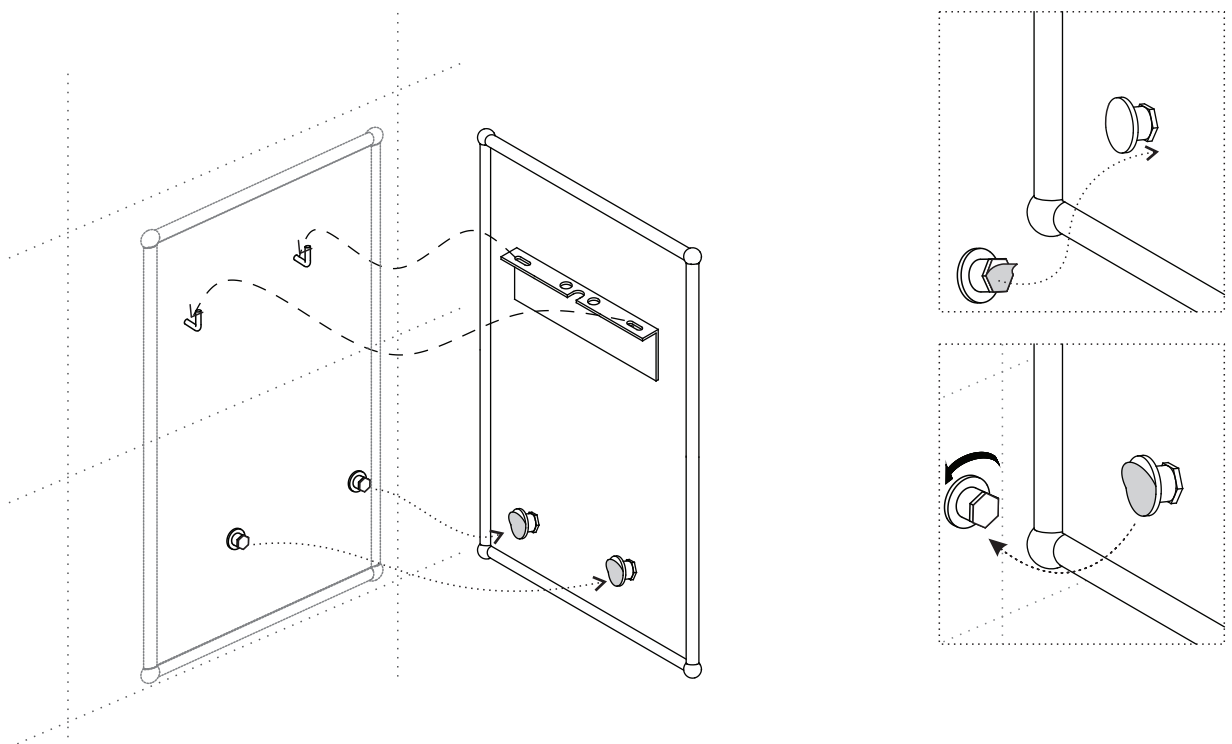

3

Keep the stainless screw exposed 8mm outside the wall.
Mount the mirror onto the wall by hanging the bracket of mirror onto the exposed screws.

4

Check the mirror is stable.
If not please readjust the exposed length of the screws and use the washers supplied if needed.

Maintenance & Cleaning

The mirror edges are treated with a specially formulated sealant designed to protect the mirror edges from contaminants and discolouring.

Failure to follow cleaning guidelines can/will remove the benefits of the sealant.

NEVER use products containing bleach, cleaners of a gritty or abrasive nature or so called “glass and mirror” cleaning products, that can be detrimental to the long lasting finish of the mirror.

ONLY use a clean dry or damp micro fibre cloth to clean the mirror and mirror frame.
