

Burlington®

Burlington®

From the late 1800's into the 1900's, Britain led the way in bathroom design and performance. Our time honoured Burlington and Arcade bathrooms bring a complete collection of traditional products all with modern functionality. These ranges allow you to create a traditional bathroom that can reflect the historical eras of great design across Edwardian, Victorian, Classic, Contemporary or Arcade's unique Belle Époque style.

The latest technology is utilised throughout the Burlington and Arcade product ranges to bring important benefits such as stay-clean Nano glaze coating on all WC bowls, ceramic disc options on all brassware and all showers with safe thermostatic operation.

Our extensive portfolio is designed to solve all your design challenges with a vast range of models that will suit every plumbing installation. Bathroom furniture, that provides many storage solutions, can complete the look you want and is available in a choice of finishes. See the Technical Directory which starts on page 60 for the complete choice. Whatever you choose you can be sure Burlington and Arcade products will work perfectly together.

A photograph of a bathroom interior. In the foreground, there is a large potted plant with long, dark purple leaves and some green foliage. In the background, a white ceramic sink is visible on a dark countertop, with a chrome faucet. The lighting is soft, creating a calm atmosphere.

Your bathroom space should be one in which you feel completely at home, a space that reflects your unique personality and individual tastes. It's a space for rejuvenation, pampering, relaxation as well as an environment for the necessities of a daily routine.

You may already have an idea of the style of bathroom you're looking to create or you may need further guidance to help you configure your ideal traditional bathroom. The following pages in this brochure have been designed to help inspire with some of our suggested product pairings. Or you may spot something you can mix and match with product on subsequent pages. However you configure your beautifully traditional bathroom, we're sure you'll find just what you're looking for from Burlington and Arcade bathrooms.

CLASSIC INVISIBLE OVERFLOW BASIN

Our products are faithful reproductions of historical designs. This Classic basin is based on a model called Cliffe Vale produced in 1896 and described at the time as “a basin with improved waste and overflow”. It’s unique waste means there is no requirement for a plug or external waste. Simply pull the lever up to drain water.

WC OPTIONS

REGAL WCs

At Burlington we've created a range that's taller than average sanitaryware. Regal WC pans are 60mm higher than the standard option.

At 480mm high the taller WC pan ensures the knee angle remains at approximately 90 degrees whilst in use, which is the correct seating position. The taller WC provides a more comfortable use for taller people and the elderly whilst ensuring your WC is functional as well as beautiful too.

RIMLESS WCs

Burlington bathrooms are the first traditional bathroom provider to introduce rimless technology to traditionally styled WCs.

With the removal of the standard WC rim, this WC choice is exceptionally easy to keep clean. Its powerful flush covers the entire ceramic bowl, making it the most hygienic option.

Available with both standard and slimline cisterns for standard height close-coupled, back-to-wall and medium level WCs.

Hygienic

Easy to clean

Economic

nanoGLAZE *ceramic that stays cleaner*

All WCs have a unique stay-clean NANO Glaze coating, creating an ultra-smooth surface, six times smoother than standard ceramic.

All Burlington close-coupled WCs are supplied with dual flush WRAS fittings.

All Burlington WC fittings are factory set at 3L and 6L flush. They can be adjusted on site to flush at 2 1/2L and 4 1/2L.

Lever or push button cistern

Available with all Burlington Close-coupled, Low and Mid level WCs. Choose between the classic ceramic flush lever or the more contemporary flush front button.

FURNITURE

A range of beautifully traditional furniture solutions to add classic style and sophisticated British elegance to your bathroom. Choose from freestanding in either square or curved design, cloakroom or fully fitted options to create the most functional space to suit your individual needs.

New for 2021 - the graceful Chalfont furniture range with flowing curves and delicate features such as detailed brass handles and optional refined legs. Its design flexibility with numerous colour, finish, size and style options means Chalfont will perfectly suit many bathroom styles.

FURNITURE WITH ENHANCED STYLE OPTIONS

Our stunning New Chalfont furniture range with its gentle, soft curves creates an authentic and traditional feel in your bathroom.

DESIGN FLEXIBILITY

Chalfont furniture is available in 4 sizes and for further design flexibility, the option to have the vanity unit either wall mounted or floor mounted by using additional legs.

The Chalfont legs are available in wood with matching coloured paint finishes or in brass with a Chrome, Nickel or Gold finish to compliment the Burlington Brassware ranges.

To complete the look, distinct brass handles are also available in Chrome, Nickel and Gold.

CHOICE OF COLOUR

Available in 3 statement colours;

Burlington's Classic Grey and Blue allowing you to create a fully co-ordinated look across your bathroom by matching with other Burlington furniture products such as bath panels, WC seats and New mirrored cabinets.

New for 2021 Matt Black. Create an impact by matching with Black Brassware and WC seats for sophisticated monochrome style.

LUXURIOUS FUNCTIONALITY

The sweeping curves of the soft close drawer gives you functionality to store all your bathroom essentials with quiet and gentle operation.

DIMENSIONS & TECHNICAL DRAWINGS

Dimensional drawings and technical details are shown at burlingtonbathrooms.com/furniture

NATURAL STONE BASINS

Chalfont furniture units pair exclusively with Burlington's natural stone roll top basins. Natural stone's beautiful and tactile appearance is also extremely hard wearing and minor scuffs and scrapes are, in most cases, easily polished and smoothed away. These basins are supplied undrilled for your preferred choice of 1,2 or 3 tap holes.

CRAFTSMANSHIP

All of our furniture pieces have a high quality paint finish and are prepared with 3 layers of primer featuring UV stabilisation to minimise colour fading from exposure to sunlight. Followed by 2 layers of top coat for a glorious depth of colour. Built to withstand the environment of the bathroom with a 10 year guarantee* for total peace of mind.

FURNITURE WITH INTELLIGENT DESIGN

Our furniture solutions are made from the finest materials and offer innovative features and smart details that not only make them suitable for the bathroom environment but built to last with a 10 year guarantee*.

FULLY FITTED FURNITURE

Unlike conventional fitted furniture, our units offer full floor to height storage providing increased space for all your bathroom cosmetics and accessories.

CHOICE OF COLOUR

Five stunning and serene colourways across our entire range which can be carried through the bath panels and WC seats for a consistent and seamless look.

MINERVA BASINS AND WORKTOPS

Minerva basins fit perfectly with your chosen furniture unit. Should you opt for a fitted furniture look, a Minerva worktop can be chosen to fit the length of your furniture units.

5 LAYERS OF PAINT

Each of our furniture pieces are prepared with 5 layers of primer featuring UV stabilisation to minimise colour fading from exposure to sunlight. The painted top coat is then applied for a glorious depth of colour.

ROUTINE CLEANING

Minerva® does not require any specialist cleaning regimes, most dirt and light residue will easily wipe off with a damp cloth and soapy water. The work surface should then be rinsed with clean water and wiped dry. Persistent marks can be removed by using a mild abrasive cleaner, but harsh scouring powders should be avoided.

STAINING

Minerva®, unlike marble and granite, is not porous and will resist most household chemicals including alcohol and cosmetics, however, some chemicals and strong dyes can cause damage and discolouration. If spillage occurs, wipe off immediately and rinse the area thoroughly.

TAP HOLES

Minerva® worktops are supplied with an integrated bowl with overflow, and no tap holes. Tap holes are drilled by the installer in the required position and configuration. A template is provided with the Minerva® tops indicating tap hole positions and sizes.

MINOR SCRATCHING

Scratches to the work surface will be more evident on darker colours. Any minor scratches can be removed using a woven abrasive pad and other items in the care kit.

MINERVA® CARE KIT

To restore your Minerva® work top to its original best use the Care Kit to buff out all tiny scratches and scuffs. The kit contains all the sanding / buffing materials and liquids required.

CRAFTED SPECIFICALLY FOR BATHROOMS

The plinths of the freestanding furniture are crafted from a waterproof high density material - providing extra protection and giving peace of mind that wet floors will not lead to damage.

BRASSWARE

Burlington brassware can be customised with a choice of 4 tap heads; Claremont, Birkenhead, Anglesey and Kensington. In addition, Burlington is the first British Traditional designed range that enables water savings despite varying water pressures. We supply every tap with two Neoperl devices: A flow straightener, which is for use with low water pressures and an aerator, which is for use with high water pressures. Now available in Gold and Nickel finishes in selected products.

more details.

Normal tap

Water flow in a normal traditional tap.

Low pressure

Low pressure water flow with a Burlington tap using a flow straightener.

High pressure

High pressure water flow with a Burlington tap using an aerator.

Our taps are designed to deliver the following maximum flows of water, regardless of the incoming water pressure:

Basin taps: 13L per minute

Bath tap: 14L per minute

Bath shower mixer: 22L per minute

Swivelling spouts

All our bath fillers and bath shower mixer spouts swivel - so you don't have the spout in your way when you shower.

Angled mixers

All our bath fillers and bath shower mixers are available in an 'angled' version.

S adjuster

The S adjuster allows the telephone handset to be positioned over the bath. The bath shower mixer can be installed with or without the 'S adjuster'.

Bridge mixers

Our bridge basin mixer has a swivelling spout and allows you to have mixed hot & cold water, whilst using a two taphole configuration.

COLOUR OPTIONS

Matching your taps to your bathroom colour scheme has become even easier.

We have 3 additional accent colours as an alternative to White indices; Black, Medici and Luxurious Walnut (Only available with Kensington handles - see pages 166/167 for more details).

To order add the accent colour code to the end of the standard tap code.

Black add **BLA**
Medici add **MED**
Walnut add **WAL**

THERMOSTATIC SHOWERING

Within the valve there is an automatic adjuster which maintains temperature by adjusting the flow of each supply. This is useful in guarding against the possibility of scalding. If for instance, someone flushes a WC whilst you are showering, the flow of hot water will immediately be closed down to compensate for the reduced cold water flow.

SHOWER HEAD HEIGHT

The standard riser pipe (V21) has a length of 856mm.

To increase the height of your shower head use the extended riser (V22) which has a length of 1814mm increasing the height by 958mm.

To order the extended riser simply add .EXT to the product code. For example BSF1S changes to BSF1S.EXT

Please see the burlingtonbathrooms.com for details.

ONE WAY WATER

Our non-return valves ensure the flow of water in only one direction, ensuring heating efficiency, preventing siphonage of contaminated water and keeping your shower cartridge in excellent condition for longer.

AIRBURST SHOWER HEADS

By combining air and water, the pressure inside the shower head is increased. The power of a traditional shower head with up to 33% water saved.
