Introducing
THE MEDICI COLLECTION
from Burlington

In 1929, the Standard Sanitary Corporation of America introduced a luxury bathroom colour, Ivoire De Medici, said to “have brought the warmth of sunlight to bathroom décor”. This ‘mellow tint of old ivory’ was first achieved by Italian potters who worked under the patronage of the famous de Medici family in Florence. The famous writer and style leader of the time Emily Post wrote “I would very much like to rip out all the white ones and burst into colour”.

Now, 90 years later, Burlington Bathrooms have lovingly crafted a number of their popular classical designs into a capsule collection of time-honoured pieces featuring this unique subtle, natural coloured ceramic, reminiscent of bygone eras of great bathroom design.

Accessories

Arched mirror and Ornate
lights with vase shades.

Bath

Medici Batello grande
bath, Medici Claremont
bath shower mixer and
stand pipes.

Brassware
Medici Claremont
basin mixer with high
central indice and
click-clack waste.

BRASSWARE

Burlington brassware can be customised with a choice of 4 tap heads; Claremont, Birkenhead, Anglesey and Kensington. In addition, Burlington is the first British traditionally designed range that enables water savings despite varying water pressures. We supply every tap with two Neoperl devices: a flow straightener, which is for use with low water pressures and an aerator, which is for use with high water pressures.

Claremont

Add code CL

Birkenhead

Add code BI

Anglesey

Add code AN

Kensington

Add code KE

Normal spout

The underside of a bath spout of a normal, traditional bath tap.

Burlington spout

The underside of a Burlington bath tap with a Neoperl aerator.

Normal tap

Water flow in a normal traditional tap.

Low pressure

Low pressure water flow with a Burlington tap using a flow straightener.

High pressure

High pressure water flow with a Burlington tap using an aerator.

Our taps are designed to deliver the following maximum flows of water, regardless of the incoming water pressure:

Basin taps: 13L per minute.
 Bath tap: 14L per minute.
 Bath shower mixer: 22L per minute.

Swivelling spouts

All our bath fillers and bath shower mixer spouts swivel - so you don't have the spout in your way when you shower.

Angled mixers

All our bath fillers and bath shower mixers are available in an 'angled' version.

S adjuster

The S adjuster allows the telephone handset to be positioned over the bath. The bath shower mixer can be installed with or without the 'S adjuster'.

Swivels

Bridge mixers

Our bridge basin mixer has a swivelling spout and allows you to have mixed hot & cold water, whilst using a two taphole configuration.

- Straight down
- 90° left or right
- Straight up
- Normal basin mixer
- Off

Traditional screw-down

Quarter-turn

Quarter-turn options

All Burlington taps are available with traditional screwdown valves or with quarter-turn valves. The taps work with both low and high pressure. To order your tap with quarter-turn valves add QT to the end of your brassware code.

BASIN TAPS

Regent Options

Our regent base which can be used on all one, two and three tap hole taps (excluding Stafford) offers an extra height of 30mm than the standard tap base and adds a further 30mm distance away from the wall when wall-mounted.
