COLLECTION

Burlington®

HERITAGE BEAUTIFULLY REIMAGINED FOR MODERN LIVING

The Strand collection captures a renewed appreciation for the rich décor of the past. Rooted in the expressive character of design heritage, Strand draws on a rich palette and an evolving aesthetic, featuring refined detailing for a timeless appeal.

Like its namesake, Strand stands at the intersection of heritage and innovation, shaped by an evolving landscape while honouring the character of the past. Woven through every detail is the blending of contemporary pieces enriched with familiar form, evoking timelessness and a sense of “being outside of time”. Its inspiration lies in the refinement of historical designs purified through contemporary sensibilities to preserve the essence of the past while feeling distinctly current.

Strand represents the very best of heritage design, thoughtfully evolved for today's homes and lifestyles. Strand is therefore not only a collection but a narrative of continuity, craftsmanship and timeless character.
